

Health Careers Certification

For High School Students Only

Gordon Cooper Technology Center offers full time career pathways to high school juniors, seniors and adults. A student is eligible to receive college credit for most full-time career majors. High School students are eligible to receive math credit for various career majors. Courses are offered from 8:10 to 11:10 AM and 12:55 to 3:55 PM Monday through Friday. A student can choose to attend either the AM or PM session.

Health Careers Certification will enhance students' employment potential in the health field or serve as a bridge into higher education in the health field. Students will examine career opportunities, develop skills in patient care, study body structure and function, life stages, medical terminology, computer skills, and develop critical thinking skills. Students will participate in a clinical practicum in a health care setting.
