

Electrical Careers Technology

Gordon Cooper Technology Center offers full-time career pathways to high school juniors, seniors and adults. A student is eligible to receive college credit for most full-time career majors. High School students are eligible to receive math credit for various career majors. Courses are offered from 8:10 to 11:10 AM and 12:55 to 3:55 PM Monday through Friday. A student can choose to attend either the AM or PM session or both sessions. All students must be assessed before entering a career major.

Electrical Careers Technology prepares individuals for placement as an entry-level electrician in residential, commercial or industrial employment or for positions in sales or warehouse shipping and receiving of electrical parts. Further employment and study in the electrical field may possibly lead to a licensed journeyman electrician or contractor.

Course structure consists of electrical theory, practical shop experience and on-the-job training. Existing experience may fulfill partial credit requirements.
